Career

Web Development Internship CDCI | Nov 2021 - Dec 2021

Web Development Internship
CDCI | Nov 2021 - Dec 2021
I interned as a fullstack developer responsible for developing web applications

Web development Cherosin | Jan 2021

I worked as a FullStack Developer presenting technological solutions (web application development) for a company

Web Development NovaDev | March 2022

I was responsible for creating and maintaining complete applications and websites, using technologies such as HTML, CSS, JavaScript, PHP, MYSQL and front-end frameworks such as Laravel, Bootstrap and JQuery. I also gained experience in integration with APIs. I contributed to the efficient and quick implementation of technological solutions, playing a key role in the development of complete and functional digital products.
